NEW PRODUCT!

Power of PULSE-WAVE™

With PULSE-WAVE™ Delivery, oxygen is delivered continuously during the first 30% of the inspiratory period so what is delivered by the unit is actually received by the patient.

Power That's Affordable

- Medicare reimbursed and covered by most private insurance plans
- A non-delivery, service-free oxygen therapy

Power of 24/7 Therapy - Day or Night

- Auto Mode Technology adjusts patient therapy based on oxygen demand
 - During Activity – Auto Mode supports higher respiration rates
 - During Sleep – Auto Mode adjusts to be more sensitive in detecting breaths to maintain saturation throughout the night

Internal Battery Runtimes

Setting (LPM _{eq})	1	2	3
Nominal Wave Volumes (ml)	10	20	30
Internal Battery Run Time (hr)*	12	6	5

*Based on Breaths per minute
